Name: Pranav Raju Malwatkar		Roll No: 52037	
CO No:CO606.2		Assignment No: 7	

Title: Build a navigation menu that highlights the selected entry. uses only Angular's directives.

Code:

Index.html

```
<!DOCTYPE html>
```

```
<html lang="en" ng-app="navApp">
```

```
<head>
```

```
<meta charset="UTF-8">
```

```
<title>AngularJS Navigation Menu</title>
```

```
<!-- Link to AngularJS -->
```

```
<script
```

```
src="https://ajax.googleapis.com/ajax/libs/angular
```

```
ajs/1.8.2/angular.min.js"></script>
```

```
<style>
```

```
body {
```

```
font-family: Arial, sans-serif;
```

```
margin: 30px;
```

```
}
```

```
ul {
```

```
list-style-type: none;
```

```
padding: 0;

display: flex;

background-color: #f2f2f2;

border-radius: 5px;

overflow: hidden;

width: fit-content;

}

li {

padding: 10px 20px;

cursor: pointer;

}

li:hover {

background-color: #ddd;

}

.active {

background-color: #4CAF50;

color: white;

}

</style>

</head>

<body ng-controller="NavController">

<h2><img alt="AngularJS logo" data-bbox="125 890 145 905"/> AngularJS Navigation Menu</h2>
```

```
<ul>
```

```
  <li ng-repeat="item in menuItems"
```

```
    ng-click="select(item)"
```

```
    ng-class="{active: selectedItem ===
```

```
item}">
```

```
    {{item}}
```

```
  </li>
```

```
</ul>
```

```
<p>You selected:
```

```
<strong>{{selectedItem}}</strong></p>
```

```
<script>
```

```
  var app = angular.module("navApp", []);
```

```
  app.controller("NavController",
```

```
function($scope) {
```

```
  $scope.menuItems = ["Home", "About",
```

```
"Services", "Contact"];
```

```
  $scope.selectedItem = "Home"; // default
```

```
  $scope.select = function(item) {
```

```
    $scope.selectedItem = item;
```

```
  };
```

```
});
```

</script>

</body>

</html>

Output:

AngularJS Navigation Menu

Home

About

Services

Contact

You selected: **Home**
